What is Big Bass Crash?

At its core, **Big Bass Crash** is a multiplier-based crash game. If you have actually ever played popular titles like *Aviator* or *Spaceman*, the foundational mechanics will feel familiar. However, the game wraps these mechanics in the charming, immediately identifiable audio-visual identity of Pragmatic Play's *Big Bass Bonanza* series.

Rather of enjoying a rocket or an airplane ascend, players see the iconic bearded fisherman set off in his boat to catch a huge fish. As the boat crosses the screen, a multiplier value constantly increases, starting at 1.00 x and in theory climbing up without an upper limit.

The objective is simple: **Cash out your bet before the boat crashes or the line breaks.** If you effectively cash out before the round ends, you win your initial stake multiplied by the existing value. If you wait too long and the game crashes, your bet is lost.

How to Play: Step-by-Step

Playing Big Bass Crash is simple, making it available to both novices and seasoned high-rollers. Here is a breakdown of how a normal round unfolds:

1. **Place Your Bet:** Before the round begins, gamers have a brief betting window. You can pick your stake manually or use the auto-bet feature.
2. **The Boat Departs:** Once the wagering window closes, the fisherman triggers on the water, and the multiplier starts ticking up from 1.00 x.
3. **Cash Out:** Players need to keep an eye on the increasing multiplier and hit the **"Cash Out"** button before the round quickly ends.
4. **The Catch (Partial Cash Out Feature):** Unlike numerous standard crash video games, Big Bass Crash includes a distinct "Cash Out 50%" feature. This enables players to secure half of their earnings while leaving the other half to ride for a greater multiplier.

5. **Round Ends:** The round concludes arbitrarily when the line snaps or the boat stops. Anyone who hasn't squandered loses their active stake.

Key Features of Big Bass Crash

While the base mechanics are simple to understand, Pragmatic Play packed numerous features into Big Bass Crash to improve the user experience and include strategic depth.

2. Vehicle Cashout and Auto Play
