What is the Aviator Game?

Aviator is not a conventional slot machine with reels and paylines, nor is it a basic table game like poker or live roulette. Instead, it includes a minimalist interface centered around a red airplane taking off.

As the aircraft rises, a multiplier coefficient increases rapidly beginning from 1.00 x. The goal is easy: **squander before the airplane flies away**. If a player successfully cashes out before the crash, their stake is multiplied by the existing coefficient. If the plane flies away (crashes) before they cash out, the bet is lost.

Key Features of Aviator

- **Social Interaction:** The game consists of a live chat feature on the right side of the screen, enabling players to connect, share wins, and see what others are wagering in real-time.
- **Live Statistics:** Players can see a history of previous multipliers, helping them evaluate trends (though the game is purely RNG-based).
- **Double Betting:** Players can put 2 separate bets on the exact same round, enabling split techniques (e.g., cashing out one bet early and letting the other ride).
- **Rain Promo:** Periodically, complimentary bets are "rained" into the live chat by operators or other players, which can be declared by clicking a button.
