What is Crazy Time?

At its core, Crazy Time is a live dealer game show developed around a giant, vertically mounted 56-segment wheel. Hosted by charming speakers in elaborate, vibrant studio sets, the video game operates 24/7, streaming in high definition straight to desktop and mobile phones.

Unlike standard table games like blackjack or roulette, which count on standard gambling establishment formats, Crazy Time simulates tv video game programs. Players put bets on where they think the wheel will stop, however the addition of a leading slot multiplier and 4 interactive bonus rounds elevates the experience far beyond an easy spin of the wheel.

The Wheel Breakdown

Understanding the video game starts with the design of the wheel itself. The 56 sections are divided into numerical bets and perk video game sets off.

Wheel Segment Payment/ Feature Variety of Segments on Wheel **Number 1** Pays 1:1 21 **Number 2** Pays 2:1 13 **Number 5** Pays 5:1 7 **Number 10** Pays 10:1 4 **Coin Flip** Activates Bonus Round 4 **Cash Hunt** Sets Off Bonus Round 2 **Pachinko** Triggers Bonus Round 2 **Crazy Time** Sets Off Bonus Round 1

The Top Slot Feature

Above the primary money wheel sits the **Top Slot**, a mini two-reel slots that spins all at once with every round of the main video game.

- **Reel 1** display screens one of the wagering sections (numbers or bonus games).
- **Reel 2** displays a multiplier (ranging from 2x as much as 50x).

If the horizontal reels line up to create a match, that multiplier is applied to the matching segment for that spin. If a perk video game is selected and gets a multiplier, all prizes inside that reward round are multiplied appropriately, resulting in the video game's huge payout capacity.

The Four Crazy Time Bonus Rounds

The true heart and soul of Crazy Time are its four bonus offer video games. Players who put a bet on a specific bonus section get to participate when the wheel arrive on it.

1. Coin Flip

- **Frequency:** 4 sectors on the wheel.
- **How it works:** A simple yet awesome game of opportunity. A coin with a red side and a blue side is turned by a device. Each side is appointed a random multiplier before the flip. Whichever side lands face-up figures out the gamer's payout.

2. Money Hunt

- **Frequency:** 2 sections on the wheel.
- **How it works:** The screen transitions to a shooting gallery featuring a wall of 108 random multipliers hidden behind various signs (such as a cactus, target, or sheriff's badge). Gamers utilize a cannon crosshair to aim and shoot at a symbol of their option before the timer goes out. When time expires, all concealed multipliers are revealed, and gamers get the multiplier representing their chosen target.

3. Pachinko

- **Frequency:** 2 segments on the wheel.
- **How it works:** Inspired by the traditional Japanese arcade video game, a big Pachinko wall is displayed, filled with physical pegs. The host drops a puck from the top, and it bounces down through the maze of pegs up until it lands at the bottom in one of several multiplier slots-- or in a "DOUBLE" slot, which doubles all multipliers on the board and sets off a drop once again.

4. Crazy Time

- **Frequency:** 1 segment on the wheel.
- **How it works:** The ultimate reward round. Players go into a lively, virtual wonderland behind a red door, including a colossal 64-segment wheel.
- Players select one of three flappers (Green, Blue, or Yellow).
- The host presses a giant red button to spin the wheel.
- Whichever section the picked flapper points to is the multiplier won. If the wheel arrive at "DOUBLE" or "TRIPLE," all multipliers on the wheel are doubled or tripled, and the wheel spins once again (up to an optimum multiplier cap of 20,000 x).
