When they lose, they tend to change to the product that would have beaten their previous opponent. Expecting this shift can offer a sharp gamer the edge.
- **Avoid Overusing Rock:** Beginners statistically choose "Rock" more frequently than Paper or Scissors because of the psychological weight of the name. Smart gamers understand this and typically counter with Paper.
- **Bankroll Management:** Because rounds happen so rapidly, it is simple to lose track of money and time. Setting strict loss limitations and session timeframes is important.
