What Are CS: GO Cases?

CS: GO cases are virtual containers that can be bought from the in-game store or on the Steam Community Market. Each case includes a random selection of weapon skins, knives, gloves, or stickers. The contents are divided into several **rarity tiers**, each related to a unique colour:

Rarity Tier	Colour	Typical Items	Customer
Blue	Blue	Basic weapon skins (e.g., AK-47 Industrial)	Basic
Purple	Purple	Mid-tier skins (e.g., M4A4 Mil-Spec)	Mid-tier
Pink	Pink	Higher-value skins (e.g., AUG Limited)	Higher-value
Red	Red	Unusual skins (e.g., AK-47 Classified)	Unusual
Gold	Gold	Famous knives and gloves	Famous

When a case is opened, the game rng (random number generator) selects a product from the swimming pool according to predefined likelihoods.

How Case Opening Works

1. **Purchase a case**-- Players buy a case directly from the in-game "Cases" tab or acquire it through drops after finishing matches.
2. **Obtain a crucial**-- Each case needs a coordinating key, which can be bought with genuine money or, historically, from the Steam Market.
3. **Open the case**-- Pressing the "Open" button runs a short animation; the outcome is determined server-side.
4. **Receive the product**-- The selected skin is included to the gamer's stock, where it can be kept, offered, or traded.
