- **The High-Roller Chaser:** Play on High Risk with 14 to 16 rows. This technique accepts that lots of drops will lead to losses, but it keeps the gamer in the hunt for the evasive edge slots that offer 500x, 1,000 x, or perhaps higher multipliers.
- **The Martingale Adaptation:** Some players double their bet after every loss when using medium-risk settings, intending to recover previous losses with a single center-slot win. *Warning:* This strategy needs a significant bankroll and can quickly diminish funds during a cold streak.
