The rules are easy:

1. **Buy-in:** All individuals contribute a set amount of cases, funded by their site balance.
2. **The Drop:** The system opens the cases for all gamers round by round. Every item dropped is provided a real-world monetary value based upon Steam Market or third-party prices.
3. **The Winner:** At the end of the battle, the overall value of all skin drops for each gamer is calculated. The gamer with the highest total worth wins **all** the products dropped in the match, including those of their challengers.

If you are fortunate, you can win double, triple, or perhaps 10 times [skin fights](#) your initial buy-in. If you lose, you lose the expense of the cases.
