

Free Fusion

62a High Street, Corby, NN17 1UU

01536 260558

iphonespecialist.co.uk

Free Fusion's water damage treatment expertise extends specifically to Apple devices, an important specialty given how common liquid exposure incidents are for iPhones and iPads. The shop's UK trained engineers understand the specific internal component layout of Apple devices, supporting more effective water damage assessment and treatment. Prompt attention after a water damage incident gives the best chance of a successful repair, before corrosion has the opportunity to spread further within the device.
