This strategy includes setting the mine count to a low number (e.g., 1 or 2 mines) and intending for little, consistent wins. The multipliers are low, however the possibility of clearing a number of tiles is significantly higher than at high-mine counts.

2. The High-Risk "Sniper" Strategy

This involves setting the mine count to a high level (e.g., 15-20 mines) and going for just a couple of successful clicks. The multipliers here can be exponential, but the threat of losing the whole stake in a single click is extremely high.
