What is Big Bass Crash?

At its core, Big Bass Crash is a multiplayer social betting game. Unlike standard slots where players spin reels and wait on symbol combinations, crash video games run on an increasing multiplier curve.

In Big Bass Crash, the action revolves around a humble fisherman heading out onto the water in his boat. As the round begins, the multiplier starts at **1.00 x** and climbs higher and greater. The objective is basic: **cash out before the boat crashes**.

If a gamer cashes out in time, they win their stake multiplied by the current worth. If the boat crashes before they cash out, the bet is lost.
