What is a Crash Game?

Before diving into the specifics of *Big Bass Crash*, it helps to understand the underlying genre. Crash games are inspired by cryptocurrency trading charts and air travel styles (originated by video games like *Aviator*).

In a crash game:

- A round begins with a multiplier starting at 1.00 x.
- The multiplier continually increases as time passes (or in this case, as the fisherman's boat travels even more).
- Gamers need to cash out before the action abruptly stops (the "crash").
- If gamers squander in time, they win their stake increased by the current worth. If they fail to squander before the crash, they lose their stake.

Big Bass Crash takes this easy, adrenaline-fueled formula and wraps it in the charming, familiar audiovisual branding of the *Big Bass* universe.
