What is Crazy Time?

At its core, Crazy Time is a live-hosted online casino video game show developed around an enormous, vertically mounted wheel. The game is transmitted from a high-tech, brilliantly colored studio including a charming live host who communicates with gamers by means of a live chat.

The main goal of the game is easy: players place wagers on which sector the wheel will stop on after a spin. However, what sets Crazy Time apart from basic wheel video games (like *Dream Catcher*) is the inclusion of a **Top Slot** and **4 interactive reward video games** that deal enormous payout potential.

The Wheel Breakdown

The Crazy Time wheel contains 54 segments. Each sector represents either a number (1, 2, 5, or 10) or one of the four bonus games. The circulation of the sections on the wheel is described below:

Segment/ Outcome	Number of Segments on Wheel	Payout Odds
Number 1	21	1 to 1
Number 2	13	2 to 1
Number 5	7	5 to 1
Number 10	4	10 to 1
Coin Flip	4	Activates Coin Flip Bonus
Cash Hunt	2	Sets Off Cash Hunt Bonus
Pachinko	2	Activates Pachinko Bonus
Crazy Time	1	Sets Off Crazy Time Bonus

As the table shows, numbers appear a lot more regularly on the wheel, while the perk rounds are rarer, making them the most anticipated moments of any gaming session.

How a Round of Crazy Time Works

Each and every single round of Crazy Time follows a structured, fast-paced series:

- 1. The Betting Phase:** Players are offered a limited timeframe (typically around 15 seconds) to put their chips on one or more of the available wagering areas on the virtual design. Players can bank on numbers, perk rounds, or a combination of both.
- 2. The Top Slot Spin:** Simultaneously while bets are being positioned, a two-reel fruit machine positioned straight above the primary wheel spins immediately. The left reel exposes a bet spot (number or bonus), and

the right reel reveals a multiplier (ranging from 2x as much as 50x). If the bet area and multiplier align, that multiplier is used to the section for the upcoming spin.

3. **The Main Wheel Spin:** The live host spins the physical wheel.

4. **The Outcome:** When the wheel pertains to a total stop, the tip suggests the winning sector.

- If it arrive on a **Number**, all players who bet on that number receive a payout according to the odds, multiplied by any Top Slot multiplier if suitable.
- If it arrive at a **Bonus Game**, the game shifts to a separate, immersive benefit round.

Dive into the Four Bonus Rounds

The piece de resistance of Crazy Time is certainly its four bonus features. These minigames use the most substantial win capacity and transportation gamers into totally different virtual environments.

1. Coin Flip

- **Frequency:** 4 segments on the wheel.
- **How it works:** A simple coin with a red side and a blue side is turned by a mechanical flipper on the screen. Before the flip, random multipliers are designated to both the red and blue sides. Whichever side lands face up wins for the gamer. If the multipliers are low, a "Rescue Flip" can often be set off for a 2nd possibility at greater multipliers.

2. Cash Hunt

- **Frequency:** 2 sections on the wheel.
- **How it works:** Players exist with a huge screen displaying 108 random multipliers hidden behind shooting gallery targets (such as a bunny, a chef hat, a cactus, and so on). A countdown timer begins, and each gamer needs to aim and fire a virtual cannon at the target of their choice. When time expires, all targets expose their covert multipliers, and players gather the multiplier associated with the target they picked.

3. Pachinko

- **Frequency:** 2 segments on the wheel.
- **How it works:** Inspired by the traditional Japanese arcade game, gamers are taken to a glowing Pachinko wall filled with pegs. The host drops a puck from the top of the board, and it bounces arbitrarily down through the pegs before landing in among several multiplier zones at the bottom. If the puck lands in a "DOUBLE" zone, all the multipliers at the bottom double in value, and the puck is dropped once again for an even larger payout.

4. Crazy Time

- **Frequency:** 1 sector on the wheel.
- **How it works:** This is the supreme bonus round. The host strolls through a red door into a surreal, brilliantly colored virtual world including a colossal virtual wheel containing 64 segments and three flippers (Green, Blue, and Yellow). Players choose among the 3 flippers before the wheel is spun. The wheel can feature massive multipliers, "DOUBLE," and "TRIPLE" segments. If the wheel lands on a double or triple worth, all multipliers increase, and the wheel spins again, leading the way for the game's optimum payouts.
