In the context of online gambling, however, the concept is inverted: **players select a target multiplier, and the objective is for the game's randomized result to meet or exceed that target.**

Unlike conventional slots with fixed paylines and signs, Limbo relies completely on a cryptographic algorithm (typically Provably Fair technology) to generate a random multiplier on every round. Players set their preferred payout, and the game quickly reveals whether the random number created is higher or lower than that target.

Key Characteristics of Limbo:

- **Instant Results:** Rounds take less than a 2nd to deal with.
- **Extreme Multiplier Potential:** Players can frequently set multipliers ranging from a modest £ 1.01 \ times £ to an incredible £ 1,000,000 \ times £ (or greater, depending upon the platform).
- **Minimalist Interface:** No reels, no paytables-- simply a target input, a bet amount, and a win/loss readout.

How to Play Limbo: Step-by-Step

Playing Limbo is incredibly straightforward, making it accessible to novices. Nevertheless, because the game moves so rapidly, understanding the mechanics before putting real-money wagers is essential.

2. **Choose a Target Multiplier:** The player inputs their wanted payment multiplier (e.g., £ 2.00 \ times £, £ 10.50 \ times £, or £ 500 \ times £).
3. **Check the Win Chance:** Most Limbo interfaces instantly display the mathematical possibility of hitting the selected target.

4. **Hit "Bet" or "Spin"**: The system creates a random number. If the created number is **greater than or equivalent to** the target multiplier, the player wins. If it is lower, the bet is lost.

Below is a table showing how target multipliers correspond to approximate win likelihoods and possible payouts on a hypothetical £ 10 bet (assuming a requirement 1% home edge):

Table: Multiplier vs. Win Probability (Based on a £ 10 Stake)

Target Multiplier	Theoretical Win Probability	Payment on a £ 10 Bet (Including Stake)	Net Profit
1.05	94.28%	£ 10.50	£ 0.50
2.00	49.50%	£ 20.00	£ 10.00
5.00	19.80%	£ 50.00	£ 40.00
10.00	9.90%	£ 100.00	£ 90.00
50.00	1.98%	£ 500.00	£ 490.00
100.00	0.99%	£ 1,000.00	£ 990.00
1,000.00	0.099%	£ 10,000.00	£ 9,990.00
