What is Crazy Time?

At its core, Crazy Time is a live dealership video game reveal hosted by a passionate, energetic presenter. The main function of the video game is an enormous, brightly colored, 54-segment mechanical wheel located in a state-of-the-art studio. Players position bets on where they believe the wheel will stop after a spin.

Nevertheless, what separates Crazy Time from standard money wheel games-- like *Dream Catcher*-- is the addition of the **Top Slot**. Above the main wheel sits a two-reel mini slot machine that spins all at once with every main wheel spin. This Top Slot produces a random multiplier for a specific bet segment, which can drastically enhance payouts if that section hits on the primary wheel.

The Betting Options

The 54 sectors on the Crazy Time wheel are divided into numbers and bonus offer rounds. Players can wager on any combination of these alternatives:

- **Number 1:** Appears 21 times on the wheel (pays 1:1)

The Four Wild and Wacky Bonus Rounds

The real heart of the Crazy Time experience lies in its 4 interactive benefit rounds. Whenever the wheel stops on among these segments, players who placed a bet on that particular benefit round are carried to a secondary game area, either physically in the studio or through immersive digital graphics.

Benefit Round Frequency on Wheel Optimum Potential Multiplier Description **Coin Flip** 4 sections 5,000 x A simple red and blue coin is turned to determine a multiplier. **Money Hunt** 2 segments 10,000 x A shooting gallery screen with 108 random multipliers concealed behind symbols. **Pachinko** 2 sectors 10,000 x A radiant puck is fallen a peg wall to land in a multiplier slot. **Crazy Time** 1 section 20,000 x A huge virtual wheel behind a red door using life-changing multipliers.

A coin with a Red side and a Blue side is flipped, and whichever side lands deal with up awards the corresponding multiplier to the player. Before the flip, multipliers are arbitrarily assigned to both sides, and a "Rescue Flip" can often happen if the initial multipliers are deemed too low.

2. Money Hunt

Gamers are provided with a giant screen showing 108 random multipliers camouflaged behind various shooting gallery icons (like a cactus, a target, or a constable's badge). Once the timer ends, all symbols expose their concealed multipliers, and the gamer wins the multiplier behind their chosen target.

3. Pachinko

Influenced by the conventional Japanese arcade video game, this round includes a huge physical wall filled with pegs. The host drops a glowing puck from the top, and it bounces randomly down the board until it lands in one of the slots at the bottom, each consisting of a multiplier.
