

The Ultimate Guide to CS2 Cases: Drops, Keys, Odds, and Trading

When Valve released *Counter-Strike 2* (CS2), the transition brought more than just updated graphics, sub-tick servers, and upgraded smoke grenades. It also carried over the whipping heart of the video game's economy: weapon cases. Opening, trading, and collecting CS2 cases stays an enormous part of the community experience.

Whether gamers are seeking to advance with an unusual Knife or Glove finish or merely wish to deck out their loadout with a stylish concealed rifle, understanding how CS2 cases work is vital. This guide breaks down everything from drop mechanics and chances to the most popular cases in the video game.

How Do CS2 Cases Work?

At its core, the CS2 case system is a lotto. Cases do not open themselves; gamers should acquire a particular **Case Key** (typically priced at £ 2.50 GBP in-game) to open a case. Once opened, the video game spins through a roulette of weapon finishes consisted of in that particular collection and awards one item.

The Weekly Drop System

Players do not need to invest money just to get cases. Valve rewards active players through the weekly <https://cs2skin.com/cases> care plan system:

- **Level Up:** Upon earning sufficient XP to rank up their profile for the very first time each week, gamers receive a care plan.
- **Choice:** Players are triggered to select two out of four readily available rewards, which usually consist of a mix of weapon skins, graffiti, and most importantly, weapon cases.
- **Active vs. Graveyard Drops:** Cases typically fall into two categories: the **Active Drop Pool** (cases presently dropping actively to gamers) and the **Rare/Discontinued Pool** (older cases that drop at an extremely low rate of approximately 1%).

Understanding the Odds: What Are the Chances?

Before diving headfirst into opening cases, it is essential to understand the mathematics behind them. Valve notoriously lists the main probabilities for skin wear and rarity tiers.

Rarity Tier Approximate Drop Probability **Mil-Spec (Blue)** ~ 79.92% **Restricted (Purple)** ~ 15.98% **Classified (Pink)** ~ 3.20% **Covert (Red)** ~ 0.64% **Special Item (Knife/ Gloves)** ~ 0.26%

Furthermore, every item dropped includes a particular **Wear Rating** (Float Value), which determines how scratched or beautiful the skin looks:

- Factory New (FN)
- Minimal Wear (MW)
- Field-Tested (FEET)
- Well-Worn (WW)
- Battle-Scarred (BS)

Additionally, there is approximately a **10% possibility** that any weapon skin dropped will remain in its **StatTrak™** version, which tracks the variety of eliminates made with that weapon.
