Case battles (or case battles multiplayer) gamify this process. Numerous gamers (normally in between 2 and four) pool their resources to open the precise same set of cases at the same time. The rules are uncomplicated:

1. **The Buy-In:** Each participant contributes the same cases to the battle (purchased utilizing site balance, crypto, or transferred skins).
2. **The Open:** The system opens the cases for all gamers round by round.
3. **The Score:** The overall monetary worth of all the skins visited a player throughout the battle is tallied.
4. **The Winner:** The gamer with the highest overall item value at the end of the battle takes home **all** the dropped skins from every gamer in the lobby.

If a player gets lucky and pulls a factory-new knife while their challengers just pull minimal-value blue skins, that gamer wins a huge revenue.
