Gamers place a stake before a virtual aircraft removes. As the aircraft ascends, a multiplier increases in real-time. The objective is easy in theory, yet heart-pounding in practice: money out your jackpots before the flight ends, crashes, or flies out of range. If the gamer stops working to squander before the flight terminates, the initial stake is lost.

Key Characteristics of Avia Masters

- **Fast-Paced Rounds:** Each round typically lasts anywhere from a couple of seconds to less than a minute.
- **Dynamic Multipliers:** Winnings are determined by increasing the preliminary bet by the multiplier active at the exact moment of cash-out.

How to Play: Step-by-Step

For those brand-new to the format, the mechanics of Avia Masters are simple, though mastering the timing requires discipline. Here is how a common round unfolds:

1. **Place Your Bet:** Before the round begins, players select their wager quantity within the designated betting limits.
2. **Departure:** The aircraft launches into the virtual sky, and the multiplier begins at 1.00 x, climbing up.
3. **Display the Flight:** Watch the multiplier boost. The higher the airplane climbs, the higher the prospective payment, however the threat of the round ending abruptly also increases.
