2. **Deposit:** Players deposit CS2 skins from their Steam stock, or they utilize conventional payment techniques (charge card, e-wallets) and cryptocurrency to purchase on-site currency or coins.
3. **Wagering:** Users play numerous casino-style or esports-themed video games.
4. **Withdrawal:** Successful players can exchange their on-site winnings for brand-new CS2 skins, which are then traded back to their Steam inventories, or money out via cryptocurrencies, depending upon the platform's guidelines.
