How Rock Paper Scissors Casino Games Work

- **Rock:** Crushes Scissors, however gets covered by Paper.
- **Paper:** Covers Rock, however gets cut by Scissors.
- **Scissors:** Cuts Paper, however gets crushed by Rock.

If both the gamer and your house choose the same sign, it results in a tie (or "push"). Depending upon the particular gambling establishment variant, a push either returns the gamer's initial stake or activates a sudden-death round with boosted multipliers.

Up to 5.00 x (Varies by platform)
