The Heart of the Game: The Four Bonus Rounds

While banking on numbers provides consistent, smaller sized wins, the genuine enjoyment-- and the potential for life-changing multipliers-- lies within the four bonus rounds.

- **1. Coin Flip:** An easy yet exhilarating game of chance. A coin with a red side and a blue side is turned by a machine. Each side is designated a random multiplier before the flip. Whichever side lands face up awards that multiplier to the gamer's bet.
- **2. Money Hunt:** Players are presented with a massive screen featuring 108 random multipliers concealed behind shooting gallery signs (like a duck, a star, or a rabbit). Players use a virtual cannon to intend and contend a symbol, revealing their individual multiplier.

- **3. Pachinko:** Inspired by the standard Japanese arcade video game, the presenter drops a puck down a radiant board filled with pegs. The puck bounces randomly until it lands in among the multiplier slots at the bottom. If it hits a "Double," all multipliers on the board double, and the puck is dropped once again.
- **4. Crazy Time:** The supreme bonus round. The presenter opens a red door to reveal a gigantic virtual wheel containing 64 sections and 3 flappers (Green, Blue, and Yellow). Players select among the three flappers before the wheel is spun. The wheel can include huge multipliers, and landing on "Double" or "Triple" spins the wheel again, pressing multipliers approximately an amazing 20,000 x.

Key Features That Make Crazy Time Unique

- **Immersive Studio Design:** Evolution spared no expenditure in designing the Crazy Time studio. It looks like a colorful, whimsical wonderland filled with hidden paths, glowing lights, and futuristic equipment that perfectly mixes physical props with CGI graphics.
