

## Plan your immigration at every stage

According to the U.N. Population Division, there are now almost 200 million international migrants. About 50% of these existing immigrants are illegal OR undocumented. The worldwide immigration trend is increasing day by day. The intending immigrants also do not have good immigration plans to retain their legal status for a longer duration. They normally overstay their Visa period due to many reasons beyond their control. Then these overstayed / illegal immigrants are forced to live under inhumane circumstances for next many years of their life.

Immigration Laws and society do not help illegal immigrants. 80% of the world immigrants population is based on financial inspirations. They migrate in pursuit of financial freedom and happiness. Their existing recourses are not enough. They take big risk of their life to do OR die. Sometimes they loose life during their journey of Hope. But most hardworking immigrants who Plan their immigration with proper research and knowledge of immigration laws and procedures are normally able to achieve their immigration goals successfully. They define their immigration objectives in a very realistic way. Their immigration plan is similar to a good business plan. Their every immigration step is pre planned and anticipated. They know their limitations of resources and set realistic immigration targets to be achieved. We will be publishing series of Articles about IMMIGRATION PLANS prepared and executed by intelligent and hardworking immigrants to achieve their short OR long term immigration [R. PAOLA VARGAS DALY LAWYER](#) objectives. These samples Immigration plans will help and guide the international immigrant communities to develop their personal immigration plans for their own success. These series of real world immigration plans are true ground realities. Due to privacy reasons the actual Names of immigrants have been changed. We have tried to explain the immigrants thought process while developing their immigration plans.
